

## Front End Software Engineer - Provo, UT

SmartyStreets is on the hunt for a front end software engineer with strong skills in producing and implementing functional software solutions. You will work closely with a stellar team of software engineers to build and maintain stunning front-end applications. You'll be at the forefront of innovation in location data intelligence by creating meaningful experiences for customers while learning the answers to life, the universe and everything.

### Responsibilities

- Have fun! We're serious about our work, but we're equally serious about enjoying our work
- Collaborate with others to develop high-quality, high-performance software, and serve as a technical expert on development projects
- Research and innovate to help us take our apps to the next level (e.g. evaluate new technologies, automate common tasks, etc.)
- Maximize your personal growth through various company-sponsored trainings, including Arbinger, Getting Things Done (GTD), etc., and apply what you learn in your work and interactions with others

### Requirements

- 5+ years of software development experience
- Deep understanding of modern JavaScript, CSS/SCSS, HTML
- Strong experience with mainstream JavaScript frameworks and libraries (bonus points for experience with React.js)
- Understanding of effective software design patterns and development best practices (i.e. you're a pro at writing clean code)
- Familiarity with Webpack, node.js, npm, and similar technologies
- Experience building and maintaining API-driven web applications (JAMstack)
- Analytical mind with problem solving attitude
- Excellent organizational and leadership skills
- Strong (but humble) mentoring skills. You love to share your knowledge with others almost as much as you love when they share their knowledge with you
- Did we mention having fun? Work hard, master your craft, and have fun along the way

## Employee Perks and Benefits

- Competitive salary
- 100% company-paid medical and dental coverage
- Generous PTO and paid holidays
- Company-sponsored 401(k) with company match after one year of employment
- Reimbursements for phone, internet, and more
- Fully-stocked kitchen
- Weekly in-office chiropractic care
- Company-sponsored trips and activities (we're serious about having fun)
- Work-life balance because we genuinely care about you as an individual

## Company Overview

Since its founding in 2011, SmartyStreets has grown to become a recognized industry leader in location data intelligence. We provide enterprise-grade SaaS solutions for address validation, geocoding, and data enrichment around the world. As we've grown, our culture has been built upon creating, building, helping, and collaborating with energy and excitement. We enjoy our time together by giving appropriate effort and mastering our respective crafts, being outward toward others, and by doing lots of fun things together. If you aren't enjoying yourself, then you're doing it wrong!
